About Our Institution

Kings College of Engineering (KCE) was born out of a dream and vision to provide education with unparallel quality to the young and enthusiastic students of our nation. The college is approved by the AICTE, New Delhi and affiliated to Anna University, Chennai. The drive from our management and dedication of the faculty has seen KCE to rise to the status on one of the most prestigious institutions in this part of the country.

KCE, run by Raj Educational Trust (RET), Chennai, is a fast growing technical institution in the state of Tamilnadu with a great promise to cater the educational demands of budding engineers in and around Thanjavur from 2001. Our institution offers five UG programmes namely, EEE, ECE, CSE, Mechanical and Civil Engineering and four PG programmes namely, VLSI Design, Thermal Engineering, Power Electronics & Drives, and Computer Science & Engineering. We strive and endeavor every passing day to build our students as technocrats.

Genesis

The Electrical and Electronics Engineering Department is established in the year 2001. The department of EEE offers 4 year B.E degree course and 2 year M.E in Power Electronics and Drives(EEE). We have a team of highly qualified, experienced and dedicated faculty to impart quality education to the students. All the laboratories are well established with the state-of-art equipment and latest licensed software for simulation studies that will help our students to achieve their goals. Our department has an approved research centre for pursuing research (Ph.D) under Anna University, Chennai.

Conference Objective

The conference is committed to become the preferred and common hub for the researchers, academicians, practicing engineers, policy makers and industrialist to exhibit their new research results, to seek solutions for their research / industrial challenges / problems, to develop networking with hundreds of professionals in the field of interest.

Conference Themes

Energy conservation and harvesting.
Energy efficient and power saving technology.
FACTS Controllers.
Biomedical instrumentation.
Bioinformatics and material science.
PLC & SCADA systems.
Power delivery and signaling for IC Chips.
Soft computing techniques in power systems.
Power Quality issues & Enhancement.
Intelligent control systems.
Role of Nuclear energy and its issues.
Robotics & Automation systems.
New Power converter topologies.
High Voltage Engineering.
New Inverter Technologies.
Power system security.
Solid state drives.
Renewable Energy systems.
Embedded systems and drives.
Control systems.
Measurements & Data acquisition.
Safety, Reliability &
Smart sensors in power systems.
Distributed Generation.
Deregulated power systems.
Smartgrids & Microgrids in power systems.
Optimal power management.

Call for Papers

Original research and unpublished papers are invited in the above list of themes from Researchers, academicians, R&D Personals, practicing engineers and PG Students. The guidelines for preparing full length papers should be followed as per IEEE format. The papers shall be reviewed by the experts and authors will be intimated as per schedule. Atleast one author of the paper should register for the conference. Only selected papers with registration fee will be entertained for presentation and published in the conference proceedings.

Paper Submission

The papers must be submitted through E-Mail in both MS word (.doc & .docx) and PDF format (compulsorily it must be in IEEE format) to nacofee19@kingsindia.net
